

Guideline for the Summer interns

Confidentiality and Login Credentials: Summer interns are strictly prohibited from sharing their LMS credentials with anyone. Unauthorized sharing of credentials will result in automatic account locking. Each ID is designated for single-user access only.

LinkedIn Profile Updates: Upon onboarding to the LMS, interns are required to adhere to the LinkedIn guidelines document provided (Attached in General files). This includes updating their LinkedIn profile with a first post, resetting the cover picture, and uploading the CEI badge as their profile picture.

Internship Start Date: The internship officially commences on the date selected during registration.

Course Curriculum Access: The course curriculum will be accessible automatically, unlocked on a weekly basis, in alignment with the internship start date.

Offer Letter Retrieval: Interns can download their offer letters from the "Achievement" section within the LMS portal.

Time Commitment: Interns are expected to dedicate 3-4 hours per day to completing curriculum modules, assignments, and projects.

CEI Certificate Eligibility: To qualify for the CEI certificate, interns must complete the assigned projects and a minimum of 80% of the provided assignments.

Project Submission Deadline: The deadline for submitting the major project is set **3 days prior the internship completion date**. For example, if the internship concludes on July 4th, projects must be submitted by **July 1st.**

Project Evaluation and Certificate Issuance: Upon successful project submission, domain experts will review and approve projects for certificate eligibility.

Certificate Availability: Certificates will be uploaded to the LMS portal **once you submit the project and receive the feedback**. Interns can download their certificates directly from the portal.

Communication Guidelines: All official communication must be conducted through designated channels such as email, the LMS portal. Interns are expected to maintain professional communication etiquette at all times. Response timelines from mentors may range between 24–48 hours.

Attendance and Activity Expectations: Interns are expected to remain active on the LMS platform and regularly progress through the assigned modules. Prolonged inactivity or lack of engagement may impact certification eligibility.

Plagiarism and Academic Integrity: All submissions must be original work. Any form of plagiarism, copying, or use of unauthorized resources will lead to disqualification from certification.

These guidelines are established to ensure professional and productive experience for all summer interns.
